From the website: Thanks to Ken Kavanaugh's design, Seasons Ridge is one of the finest championship courses in the Ozarks and has been ranked by Golf Digest as a 4-star course for "Places to Play." Many golfers refer to the 18-hole course's altitude drops and generous landing areas as "player-friendly." Golfers on this par-72 course enjoy rolling hills, native wildflowers, and beautiful views of the Lake. Our golf staff is experienced in special events, tournament management and group administration, and they are happy to highlight a round of golf or offer pairing and scoring assistance at all courses for your tournament. Seasons Ridge includes a 4,000 square-foot clubhouse, featuring a large pro shop and The Grill. Premium rental equipment and complete food and beverage service are available at all of our courses. Our resort course offers zoysia fairways, moderate elevation changes, and fantastic greens. Playing to a par of 72 with a total yardage of 6447, this course promises a great experience for all ability levels.
