Cleveland Golf, the leader in wedge technology, proudly introduces the new 900 Form•FORGED Wedges. Two solid years of research on the PGA and BUY.COM Tours, as well as with thousands of golfers everywhere, have helped us develop wedges with the consistency of Form•FORGED Irons and a new shape, size and sole design. The 900 Form•FORGED Wedges also feature a loft and bounce selection system that allows all golfers a simple way to select wedges for their own short games.
